

# HYDROFILL™ PRO

WATER WHEN YOU NEED IT, WHERE YOU NEED IT

## GETTING A DEIONIZED WATER SUPPLY TO YOUR BATTERIES EASILY

**INTEGRATED  
DEIONIZER**

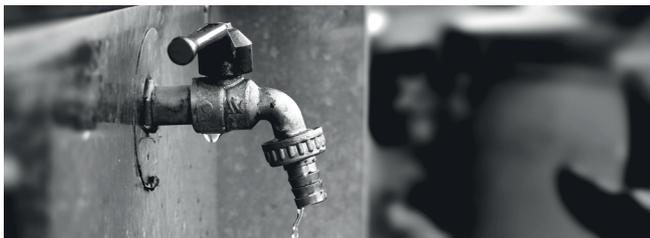

**60 LITRE  
CAPACITY**

**REAL-TIME  
FEEDBACK**

### PROBLEM...

More often than not, a water supply is not in an easy to reach position, it can be on the other side of the warehouse which is expensive to reposition. What's more of an issue is that operators often use this water to fill their batteries, causing a lot of issues:

- Increased self-discharge.
- Shortened run time.
- Reduced battery life.

Battery water should be free from impurities because they can directly affect cell voltages and cannot be removed by using conventional filters.

### ...SOLVED

The HydroFill Pro mobile watering system solves all of these problems. It's huge 60 litre tank can be filled straight from your existing water supply and its integrated water deionizer generates pure water for you to fill your batteries with on the go. This helps to:

- Ensure batteries can be filled easily.
- Increases battery life.
- Less frequent battery purchases.

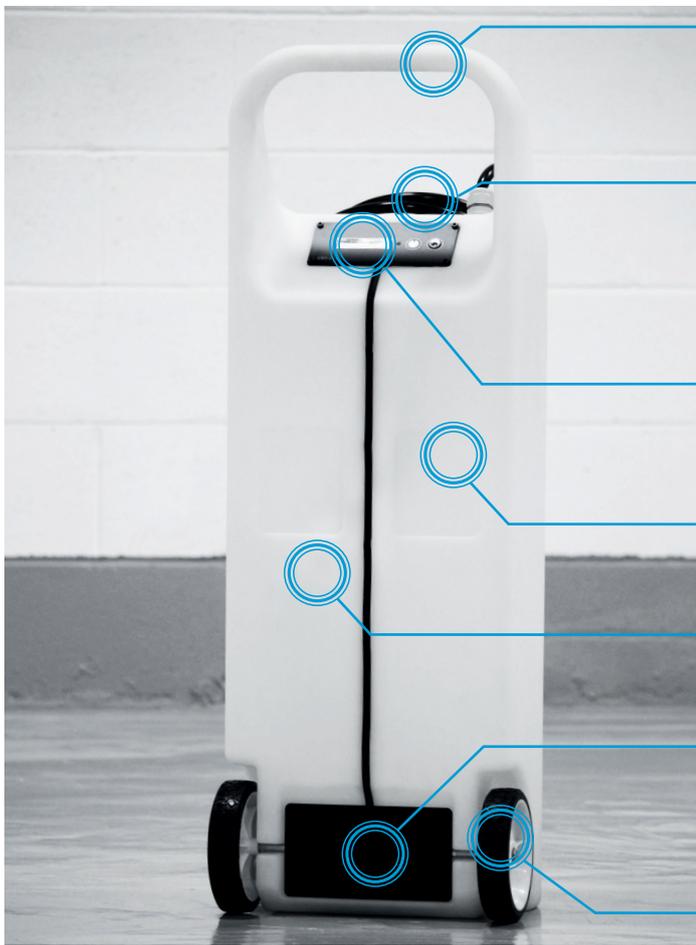

As more battery data values are recorded, and the information is easy to understand, it turns your normal battery into a smart battery.

## SMART WATER

The HydroFill Pro brings a new set of features to our HydroFill range. With a huge 60 litre capacity and a tactile LCD display that gives you instant feedback, the HydroFill Pro greatly improves your battery watering capability. The smart display even lets you know the purity of the water as you are topping up your batteries, to make sure your water is pure each and every time.

We've integrated our deioniser cartridge, giving you pure water for your batteries each and every time you need to top them up.

The HydroFill Pro has the added benefit of regulated output pressure delivering water at a constant 14.5psi/1 bar making it quick and easy to use with float based battery filling systems such as our AFS™ system. The HydroFill Pro is supplied with a quick connect fitting and a 3 meter hose as standard, giving you all the flexibility you'll need to keep your batteries topped up.

**EASY TO MANOEUVRE**

**3 METER HOSE**

**LARGE LCD DISPLAY WITH REAL-TIME FEEDBACK**

**HUGE 60 LITRE CAPACITY TANK**

**OPTIONAL INTEGRATED DEIONISER**

**SEALED RECHARGEABLE BATTERY**

**HARD WEARING AND DURABLE DESIGN**

The HydroPure™ Deioniser Cartridge fits inside the HydroFill Pro making it the only mobile water cart with an integrated deioniser. You can now make pure water instantly, taking it to your batteries, wherever they are.

## SPECIFICATIONS

<b>Part No:</b>	CRT-3
<b>Maximum Capacity:</b>	60L
<b>Height:</b>	1000mm
<b>Width:</b>	350mm
<b>Output hose length:</b>	3m
<b>Water pressure:</b>	14.5psi / 1 bar
<b>Wheel size:</b>	150mm
<b>Shipping weight:</b>	8kg
<b>Max weight:</b>	72.7kg
<b>Charger Part No:</b>	CRT-E202
<b>Cartridge Part No:</b>	PS-600

## FEATURES

- INTEGRATED DEIONISER
- TACTILE LCD DISPLAY
- 60 LITRE TANK
- PURITY SENSOR
- DISCHARGE INDICATOR
- LOW WATER ALERT
- DIAGNOSTIC INFORMATION
- MULTI-LANGUAGE

## BENEFITS

- EASY TO USE
- ROBUST
- TRANSPORT WATER EASILY
- NO ASSEMBLY REQUIRED
